Sponsored by:

Ten guiding principles on how to avoid the institutional failure of ACAs

Rule 1: Think first, then act (on why & how creating an ACA)

Rule 2: Reach pro-active forms of consensus (not immobilising ones)

Rule 3: Avoid traps and gaps in the authority's statutes

Rule 4: Promote a leadership and a social composition with integrity and dedication

Rule 5: Define a strategy of resource management

Ten guiding principles on how to avoid the institutional failure of ACAs

Rule 6: Create communication strategies and an IT-based complaints system

Rule 7: Flexibility, adaptability and informality

Rule 8: Build up strategic alliances

Rule 9: Integrate the ACA into international cooperation networks

Rule 10: Anchor ACA action in civil society

Many thanks for your
cooperation!
